DEMAND FOR SILVER

BULLION IN LONDON HIGHER THAN SINCE CHINA-JAPAN WAR.

Falling Off in Volume of Business of New York Exchange Yesterday-Local Markets Neglected.

The New York Evening Post said in its inancial review yesterday: "One of the noteworthy incidents of the day was a further advance in silver bullion to 30 15-16d on the London market, the highest figure of the year. This is the first demonstrasince the treaty of peace between China and Japan last May. The price temporartouched 30% that month, but since then and until last week the price of silver has held almost motionless at 304d to 3014d. Yet it was plain throughout this interval that silver was being steadily accumulated in London. During July and August, when its silver exports usually predominate, Great Britain imported by official returns, \$4,917,000 more silver than it sent out. In the same two months exports of silver from the United States to London were \$3,991,000 greater than in 1894. The New York weekly shipments during September reached a still larger average, twice making a weekly total of nearly \$1,000,000. It may surprise some people to snow that our silver export under such conditions is the largest since the civil war. Nor is there any difficulty in guessing the purpose of these London buyers. One object of the Chinese indemnity was to provide the silver needed to redeem panese notes floated for war purposes n Corea, for which redemption silver will be available. If the indemnity fund were to be used to fill Japan itself with a silver currency the demand would of course be vastly greater. But the Japanese statesmen are shrewder students of government ance than the oracles of our own great

At New York yesterday money on call as firm at 21/203 per cent.; last loan, 3; losed at 3 per cent. Prime mercantile paper, 4% 96 per cent.

Sterling exchange was weak, with actual business in bankers' bills at \$4.8794.87% for demand and \$4.8694.86% for sixty days; posted rates, \$4.8794.87% and \$4.8804.88%; commercial bills, \$4.85%.

Silver certificates, 67% 667%c; bar silver, 67%c; Mexican dollars, 33%c. At London bar silver was 30 15-16d per ounce. silver was 30 15-16d per ounce. ting: American Sugar, 18,500; American eco, 8,700; Atchison, assessment paid 7,800; Burlington, 12,400; Chicago Gas, 48,300; Distilling, 4,900; General Electric, 4,100; Reading, 20,600; Rock Island, 5,600; St. Paul, 21,000; Silver Certificates, 20,000; Tennessee Coal and Iron, 4,400; United States Leather preferred, 11,900; Wheeling & Lake Erie, 6,400.

Trading in stocks on New York 'Change all short of Monday's total by about 90,000 res. The course of prices was irregu-though the trend was downward. The ndustrials and grangers were the leaders a activity. London prices came lower, and foreign dealers were sellers in the American market. Domestic influences bearing on the speculation included an easier market for sterling exchange, a firmer tendency to rates for call money and commercial paper, reports of impending further advances in anthracite coal prices and advices of sharp rate cutting in Western railroad rates. The easier market for exchange was attributed to increased offerings of bills against commodities and to the gs of bills against commodities and to the earance of bills against recent purhe last mentioned transactions have chiefbeen made over the counter by invest-aent houses, and have not figured in the tock Exchange records. Leather was harply advanced on news of the leclaration of a special dividend of 2 per cent. It is reported in the leather trade that the recent cuts in sole leather have failed to stimulate activity. The gossip con-cerning the anthracite trade failed to affect the market price of the leading stocks in that group. Special weakness in Chicago Gas was not attended by any explanatory rumors. No details of the alleged impendreorganization plan are obtainable at nt. The general market opened weak noderately active. The losses were cond to fractions, the most noteworthy be-in Chicago Gas. Missouri Pacific and messee Coal. The downward movement on checked, and recoveries followed ending to 1 per cent. in Sugar. The im-ving tendency was of short duration, vever, as a vigorous raid against Leatheferred sent that stock down 2% per and had a depressing sympathetic on the general list. Around 11:30 o'clock support was given to the market, and covering of shorts stimulated a general recovery, in which Leather preferred rose an exceptional 3% from the lowest point. In the last half hour Chicago Gas was again subjected to special bear pressure, and on heavy dealings the stock lost per cent. to 66%, making a net decline of 4% per cent. In speculative circles the impression regarding the consolidation agreement, so-called, is that it was too vague nt, so-called, is that it was too vague its terms to command support The stock sed at the lowest, and was responsible a yielding tendency in the general mart. In only Sugar, however, did the deine reach full figures. Liquidation was

conspicuous than for some time past, firmer tendency of money and the reded rate cutting being chiefly responsible this development. Speculation left off weak in tone, the net results of operations owing general fractional losses.

The bond operations in the morning were eagre in volume, and slightly lower prices ed. In the late session, however, support was accorded the market, and on an increased volume of business fractional recoveries were established in the specula-tive issues. In the less animated mortcharacter were registered, particularly Erie first consols, which sold up 3½ per cent. to 141½. Oregon Improvement firsts ran on 3 per cent., to 92, subsequently rallying to

Government bonds were quiet, the transactions embracing only \$25,000. The currency sixes of '97 improved 2 per cent. on the bid quotation. State securities were dealt in to the extent of \$8,000 for Virginia centuries and \$1,000 Alabama four-fives, The following table, prepared by James E. serry, Room 16, Board of Trade, shows the ange of quotations:

THAT WYOMING MONKEY. Its Discovery May Throw Light on the Evolution of the Human Race.

New York Sun. The annual summer exploring party from the American Museum of Natural History returned home yesterday. The party was under the leadership of Professor Wortman, curator of the Museum of Natural History, and contained, besides, Professor Irving, of

Columbia College, and several attaches of the museum. Every year an expedition is sent to the Rocky mountain region for the purpose of collecting fossils and studying the geology of the country. Professor Wortman said yesterday in regard to the "We first went to Utah basin, and, after a few weeks there, crossed the Uinta range and began explorations in the Washakie region, sometimes called also the Bitter creek desert. Our object in going there was to secure remains of an animal known

to science as Uintatherion. Previous visits to the region had resulted in the collection of a large number of skulls, which are now on exhibition at the museum. We were anxious to secure other parts, so as to "Remains of other forms are found in these deposits, and one which has long been known to paleontologists is that of a low tpye of monkey or a lemur, living species of which exist in Madagascar. The remains of these fossils hitherto discovered consisted of extremely fragmentary and isolated parts of the skeleton. The find which we made last summer, and which has been widely written about as the missing link was a complete skull of one of these link, was a complete skull of one of these monkey-like creatures, which will go far are true monkeys or lemurs. As nearly as I could judge from what is to be seen of the skull embedded in the sandstone matrice, I am inclined to think that the animal it belonged to was a true monkey. If this proves to be the fact, it will give very interesting data respecting the rise of the monkey tribe, as well as its early connec-tion with the next lower monkey-like forms

"Yes, its discovery may have a bearing on the evolution of the human race, but, of course, it isn't the missing link as that phrase is popularly understood. I have never made any statement which could be taken as justifying such a claim, and if I had I would only have made myself ridiculous among scientists. In fact, Wyoming would be about the last place a scientist in search of the missing link would go, because none of the lighter forms of monkeys are to be found on this continent.

"The Wyoming fossil is a specimen extremely interesting to the scientist, and the only one of the kind ever found. It will be prepared and studied, and later on will be put on exhibition." tween man and the ape?

"Then this fossil is a link, though not the

one needed to establish the connection be

ut on exhibition. There's no doubt about the antiquity of "There's no doubt about the antiquity of this specimen, is there?"

"Not a bit. From twenty years' experience I claim to be able to distinguish the difference between a petrified skeleton and a recent one. There is not the slightest doubt that this is a genuine fossil. It belongs to the Eocene formation of the region in which it was found.

"There has been and still is a lot of "There has been, and still is, a lot of nonsense written about the missing link,"

continued Professor Wortman, "but scien-

tists are not worrying thmselves greatly about it, and I am not sure that we can properly speak of a missing link at the The discovery of the manlike ape Java in deposits which are now generally admitted to be of the Pliocene age-the period immediately preceding man-goes a long way toward deciding the true ana-tomical position of the famous Neanderthal skull, which was also heralded as the missing link. There have been many bitter discussions over this famous relic, and opinion has been much divided as to whether it belonged to a man of inferior capacity or was the representative of a race of men of low brain development. With the discovery of the Java specimen and other remains at Spy. Belgium, we now have three widely separated and distinct examples of a race of men who, there can be little doubt, were

the immediate progenitors of the human family, and who, so far as their ancestry is concerned, stood half way between the anthropoid apes and the human species. "When we speak of links in the chain of human ancestry we cannot stop with the anthropold ape, but we must bring it into direct association with the lower forms of monkeys. The time has now arrived when we can say with an extreme degree of plausibility that there are no anatomical difficulties in the way of constructing a

"In addition to this one important discov-ery our party secured many important spec-imens, which will be placed on exhibition n the new hall now being prepared for them in the east wing of the museum.

THE CARRIER WOULDN'T SPEAK. Postoffice Discipline That Surprised an Inquiring Stranger. New York Tribune

It was down in the dingy, brick-walled network of streets on the West Side that a Harlem girl paused, perplexed as to where she was. She wished to reach a Jersey ferry, and was unfamiliar with the locality. No policeman being in sight to whom she could appeal, she threaded her way through the thick-moving tangle of wagons in the narrow street to where a letter-carrier stood by a maubox on the opposite "Can you direct me to Desbrosses street?"

she asked of the postman. The official was taking a pile of letters out of the box, and vouchsafed no response, so the girl repeated her query. Still the man continued impassively to unload the box, and paid not the slightest bit of at-tention to the polite inquiry.

"He must be deaf," thought his question-er, so she asked her question a third time in tones loud enough to reach the ears of a party several feet away.
This energetic interrogation receiving more attention than before, the young lady moved away in that state of mind designated high dudgeon.

"That man is far and away the worst specimen of rudeness I ever came across," she thought, looking about for some one else from whom to get the desired information. "He might be deaf, but he has eyes, and he could see that I was asking him something." She had gone only a short distance when a hand touched her sleeve, and the supposed rude and deaf carrier stood before her.

"Excuse me," he said, touching his hat politely, "but we are not allowed to speak while we are taking mail out of a box."

"Oh!" exclaimed the girl expressively, and pondering on this, to her, novel phase of governmental authority, she continued

SHORTS NERVOUS AND PRICE OF LEADING CEREAL STARTED UP.

Heavy Buying Orders at Chicago Gave Bulls an Opportunity-Provisions Were Unchanged.

CHICAGO, Oct. 8 -- Ordinary firmness in Liverpool wheat to-day and the nervousness of the shorts here and elsewhere caused a reversal of the course of prices. December, which closed yesterday at 58%@ 59c, rose to 601/c, and closed at 59% @59%c. Corn and oats sympathized with wheat to the extent of about 1/3c per bu, and provisions closed practically unchanged. Wheat was fairly active to-day and

showed decided strength, selling up before noon about 1%c above the close yesterday. The news was somewhat conflicting, the deliveries in the Northwest were again heavyover 1,600 cars-and the world's wheat shipments last week were 350,000 bu more than the importing countries require for their weekly consumption. To this extent the situation seemed weaker, but cables were higher and all domestic markets were doing better, and prices here were again strong from the start. New York had good buying orders here, the Northwest also bought and the local sentiment was bullish. The firmness abroad was not easily accounted for, especially as it followed a sharp break here and the fact that it was being adhere and the fact that it was being advanced there so strongly was an encouraging factor for the local bulls, and started shorts to covering to stop losses. The market went up pretty steadily over a cent from the opening and 14c above the close yesterday, and held much of the improvement. December opened at 594c, sold at 594c up to 604c, and at noon was about 604c. The market held very steady during the last hour, December holding for a considerable time at about 60c, and closing iderable time at about 60c and closing

Corn was fairly active and firm, influ-enced largely by the strong feeling which ruled in wheat. There was some covering by shorts, due to the better tone which prevailed in other speculative circles, and there was less disposition to sell. May sold from 28% to 29% and October at 29% 29% and held firm. There was not much business during the last hour and prices held steady at 29c for May and 29% for October, the close being at those figures. at 17%@17%c and May at 20%@20%c, closing at the high prices. There was very little

business, and price changes were light and Provisions were firmer with grain for while near the beginning of the session, but an early rise in January pork, which was the most prominent feature of the improve-ment, was lost in the end. Lard and ribs lost also a slight rise made at the opening, and in the end there were sellers at a small fraction under yesterday's closing prices. Hogs receipts to-day were 28,000, and the large receipts, with lower live hog prices,

caused the reaction from top figures.

Estimated cars for Wednesday-Wheat, 210; corn, 410; oats, 360; hogs, 35,00) head.

Elsewhere.

Common to medium lambs.....

Bucks, per head.....

Shippers and packers were free buyers, and

CHICAGO, Oct. 8.—Choice native beeves were strong at yesterday's advance, and sales to dressed-beef men and shippers were on the based of \$565.80 for the better class of cattle and \$3.5964.90 for common to good steers. Comparatively few sales have been made this week below \$4.70, and a large share of the beef cattle are going at \$5 and upward. Butchers' and canners stuif sells pretty well at last week's prices, most of the cows and heifers going at \$1.75/33, with a few sales at \$3.15/33.25. Bulls are selling at \$1.75/33.65 as an extreme range. Calves are fairly active at \$3/36, with fair receipts. Texas cattle were again in good demand at \$2.80/33.30, and Western range cows and steers sold freely at \$2.50/33.30, prime steers being salable at \$4.20. The bulk of the Western steers are selling at \$3.35/33.75, the average quality being poorer than earlier in the sea/on.

Hogs—Receipts continue to increase, but the cool weather is stimulating packing operations and the supplies are well taken. Both Chicago packers and Eastern shippers were again good buyers, sales being largely at a decline of 5 from the top stuff sells pretty well at last week's prices

heavy hogs sold at \$3.60@4.20, choice butcher hogs at \$4.15@4.27\\(\frac{1}{2}\), mixed lots at \$3.75@4.20 and poor to prime assorted light weights at \$3.07@4.25. Sheep - The market is absorbing great numbers of sheep and lambs, and despite

he recent unprecedented receipts prices ave shown surprising firmness. To-day, nowever, prices were about 10c lower on receipts of fully 24,000 head, choice lots alone showing any strength. Native sheep were in fair demand at \$1.40@3.75 for po to prime, and sales were made of Western sheep at \$2.20@3.20, while lambs brought \$3 @4. The weakness was felt mainly in Receipts-Cattle, 6,500; calves, 800; hogs 28,000; sheep, 24,000.

ST. LOUIS, Oct. 8.—Cattle—Receipts, 4 300; shipments, 2,200. Market a shade high for upper grades. Export steers, \$5.2 5.40; shipping grades. Export steers, \$5.200 beef and butcher steers, \$3.5004.75; bulk of sales, \$3.6504.25; steers, under 1,000 pounds, \$2.5003.50; bulk of sales, \$2.7503.25; stockers and feeders, \$1.7503.75; cows and heifers, \$1.8503.50; bulk of sales, \$202.85; Texas and Indian steers, \$2.5003.50; bulk of sales at \$2.7503.20; cows and heifers, \$1.7503 \$2.75@3.20; cows and heifers, \$1.75@3.

Hogs—Receipts, 9,400; shipments, 409. Market 5@10c lower. Heavy, \$3.80@4.15; mixed, \$3.70@4.10; light, \$3.90@4.15. Sheep—Receipts, 4,100; shipments none Market easy; native muttons, \$2.60@3.40 lambs, \$3.25@4.50; Southwestern, \$2.25@3.25.

LOUISVILLE, Oct. 8. - Cattle - Market slow. Receipts were light, but the supply on sale equaled the demand, as there were a great many left over from yesterday, comparatively very few being needed. Extra shipping, \$464.50; light shipping, \$3.500 4; feeders, \$2.2563.75; stockers, \$263.25. Hogs-Market ruled slow, but prices were about steady and all were sold. Choice packing and butchers', \$4@4.05; fair to good packing, \$4.05@4.10; good to extra light, 44.10; roughs, \$3.25@3.60.
Sheep and Lambs—Market dull at yesterday's quotations. Good to extra shipping sheep, \$2.50@2.75; fair to good, \$2@2.50; fair to good, \$2@2.50; fair to good, \$3@3.25; common to medium.

EAST BUFFALO. Oct. 8 .- Cattle-With ad of fresh stock and a few ends o loads, there were only about three loads on sale. The market was practically unchanged and feeling steady.

Hogs-Receipts light. Market quiet.
Yorkers, \$4.30@4.55; roughs, \$3.50@3.75; pigs, good to choice, \$4.45@4.50.

Sheep and lambs-Receipts, 50 cars. Market unchanged. Lambs, choice to prime, \$4.15@4.30; Canada lambs, fair to prime, \$4.25@4.40; sheep, choice to select, and export wethers, \$3.75@4.25; culls and common sheep, \$1.25@1.75.

KANSAS CITY, Oct. 8.—Cattle—Receipts, 1,500; shipments, 3,500. Best grades steady; others slow and weak. Texas steers, \$2.50 3.25; Texas cows, \$1.2/@2.50; beef steers, \$3.25@5.30; native cows, \$1.25@3; stockers and feeders, \$3@3.65; bulls, \$1.50@2.60.

Hogs — Receipts, 12.000; shipments, 200.

Market weak and 50 lower: bulk of sales, \$3.70@3.90. Heavies, \$3.25@3.95; packers, \$3.75@4; mixed, \$3.70@3.90; iights, \$2.80@3.75; Yorkers, \$3.65@3.75; pigs, \$3.35@3.60.

Sheep — Receipts 3.000; shipments, 1.100. Market slow, but steady. Lambs, \$3@4.25; muttons, \$2.50@3. NEW YORK, Oct. &-Beeves-Receipts

Lambs dull at

NEED MORE REVENUES.

Deadlock Expected Between Congress and the White House.

Washington Special in Chicago Post. As the time approaches for the meeting of Congress the views of men upon legislative probabilities get clearer. From this point of observation it looks very much as though there would be a deadlock between Congress and the White House over legislation to increase ation to increase revenues so as to bring the government's income up to expeditures. Everything tends to confirm the theory that the President and Secretary Carlisle will stand "pat" on the Gorman end of the tariff bill and recommend internal of the tariff bill and recommend internal taxation as the best means of providing necessary additional funds. The President, in his message to Congress, will express his gratification as to the unexpectedly happy results (as he looks at them) of the tariff provisions of the new law, and will suggest a policy of noninterference with that portion of the statute, but will advise the imposing of a tax on articles of domestic manufacture. It is not believed that the President will designate what articles might be taxed to best advantage, leaving that detail for Secretary Carlisle to develop. That the list will include beer, manufactured tobacco and all kinds of propriufactured tobacco and all kinds of propri-etary medicines everybody who pretends to be near the inside of affairs fully be-

For a Republican Congress to adopt the President's views for the raising of addi-tional revenue would be to abandon and turn its back upon the corner-stone principle of the party. Hence the leaders are preparing to antagonize the administration's position by moving for an equalization of the inequalities in the tariff features of the existing laws. This is clearly being foreshadowed in the utterances from the stump and through the columns of the news-papers. Republican members of Congress who are flocking into the city at the present time are almost unanimous in giving expression to this view of the situation. They contend that the people who buy goods of oreign manufacture, especially anything and everything that might be included un-der the head of "luxuries," should make up whatever deficit there is in the governican industries can be given, so much the

Upon these two propositions arrayed in diametrical opposition there promises to be a split between the two branches of the government which will result in nothing being done. Many of the Republican leaders in both houses of Congress will make ers in both houses of Congress will make a determined effort to force the passage of a revenue law, embodying strictly Republican party principles and ignoring the President's recommendation for increased internal taxation. They believe that it will be good politics for them to throw upon the President the responsibility of approving such a measure and they do not care ing such a measure and they do not care

much which he does.

The President, on the other hand, is said to court the conflict. He is thoroughly wedded to revenue reform theories strongly tinctured with free trade and is satisfied that the sober sentiment of the country is with him. He does not interpret the tidal wave election of last fall as a rebuke to the free trade effort, regarding it as little more than a crazy evolution of discontent, ephemeral in its character Feeling thus he is not liable to weaken at any time and the more the situation is studied the greater the chances appear to be for a "deadlock."

Tortured Her Own Children. A story of a mother's shocking brutality toward her two small children was brought to light yesterday morning at a hearing be-

ore Magistrate South. Mary Johnson, of No. 202 Mechanic street, Germantown, was the cruel mother, and her two children, Agnes and Joseph, aged three and five years respectively, were the victims. Agents Walton, Watson and Ward, of the Society to Protect Children from Cruelty, were the prosecutors.

They had received complaints from Mrs.

Johnson's neighbors that she was in the habit of ill-treating the children, and the charges were investigated, with startling results. It was found that to punish the

children for playing with matches the woman had held the hands of the two little offenders against a red-hot stove. The woman confessed her crime to her husband, George Johnson, when he noticed the burns upon the children's hands.

The mother at first declared that the little ones had burned themselves playing with matches, but a neighbor told Johnson the facts, and when confronted with this testimony the inhuman mother confessed. She also admitted her offense to the magistrate yesterday, and he held her in \$600 bail for court.

A Satisfactory Epistle. Pittsburg Chronicle Telegraph. Miss Murray Hill-I feel as though I had

me a politician and received a nomina Miss Homewood-What do you mean Miss Murray Hill-I have just received a proposal of marriage and am about to write a letter of acceptance.
